From the Desk of Vice - Chancellor ...

Dear Readers,

In today's rapidly changing world, fisheries entrepreneurship is more crucial than ever. As we face the twin challenges of overfishing and rising population, there is an urgent need for innovative solutions that promote sustainability while meeting the growing demand for seafood. Fisheries entrepreneurship offers a way forward by encouraging the development of new technologies, business models, and practices that prioritise both economic growth and environmental stewardship. The 1st Indian Fisheries Students Innovation & Startup Conference (IFSISC 2025) was a notable step taken by TNJFU to nurture a start-up culture among the fisheries students. The Indian Fisheries Students Innovation & Startup Conference (IFSISC 2025), held on March 14, 2025, in Chennai, successfully promoted innovation, entrepreneurship, and research in the fisheries and aquaculture sectors. With the theme "Reimagining Indian Fisheries @ 2047", the conference brought together 475 students from across India who presented 265 innovative ideas through technical sessions, panel discussions, a startup hackathon (FISHATHON 1.0), and poster presentations. The conference focused on seven thematic areas, including sustainable aquaculture technologies, seafood processing innovations, genetics and biotechnology, environmental management, fishing technology, market dynamics, and entrepreneurship.

www.tnjfu.ac.in

23 winners from seven thematic areas of poster/prototype presentations were awarded prizes for Best Ideas, and six toppers among them were chosen for the Startup Pitch, each finalist receiving Rs. 5000 as a cash prize. The winner of the Startup Pitch received the 'TNJFU-Prof. M.C. Nandeesha Best National Startup Award' trophy.

Alumni play a vital role in upholding the legacy of our institution. Alumni are ambassadors, mentors, and contributors to the fields that they have ventured into. The potential for positive change that we, as fisheries professionals, hold is immense, and our shared experiences and expertise are invaluable. The TNJFU Alumni Network Meeting strengthened the alumni connections, featuring insightful talks, engaging interactive sessions, and the election of new office bearers to guide future initiatives. The series of events organised by TNJFU as part of the TNJFU Alumni Convention 2025 were a resounding success, fostering innovation, professional networking, and alumni engagement.
